

G.A.G. Technologies

The Right Choice!

G.A.G. Technologies is a Microsoft Gold Certified Partner and premier provider of software solutions. G.A.G. utilizes their Warehouse Management System and Microsoft Dynamics GP & CRM to control inventory, manage accounting functions and customer relations. These effective methods coupled with G.A.G.'s consistent ability to carry them out with profitable results set it apart in the market of software solutions. Headquartered in Weston FL with satellite office in the Tampa Bay Area, G.A.G. Technologies serves the technological needs of businesses in South and West Florida.

G.A.G. Technologies has an impressive track record of quality and experience, having increased steadily in annual revenue since its inception. In addition to the concrete monetary and technological returns, G.A.G. takes pride in upholding its enduring values of expertise, honesty, and respect in all professional relationships. This outlook has produced loyal, committed ties with all clients and has helped to bolster G.A.G.'s reputation in its products and services.

G.A.G. holds several success stories with distribution and manufacturing companies in the Miami/Ft Lauderdale and Tampa Bay areas.

We help clients integrate their sales, marketing and customer service with their accounting, point of sale and warehouse operation as well as their e-commerce and mobile sales force. The ability to provide an "integrated solution" makes us unique and set us apart in the market of software solutions and gives us a competitive advantage in the marketplace.

Brodsky & Associates, Inc.

As a new company we struggled with various software solutions for our business. We used multiple vendors until G.A.G. Technologies was recommended to us. They have been outstanding. Because of the size of our company, we needed to outsource all of our IT and software requirements. G.A.G. was able to provide software solutions that truly benefit our company and our profitability. It is without reservation that I recommend G.A.G. Technologies for your technological requirements."
